

User Manual

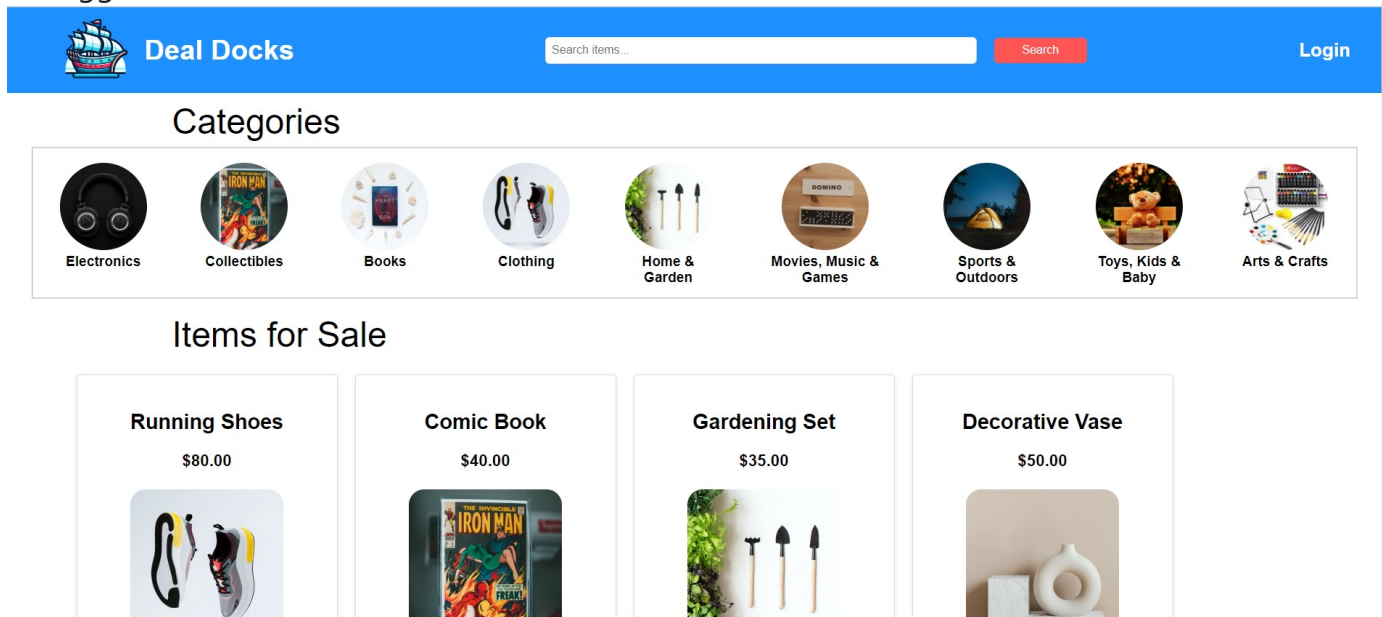

Overview

This application is a marketplace platform where users can list items for sale, search for items, and purchase them. Users can also bookmark items, view their profiles, and edit their profile information. It is hosted on Heroku and is available at [Heroku Link](#)

Features

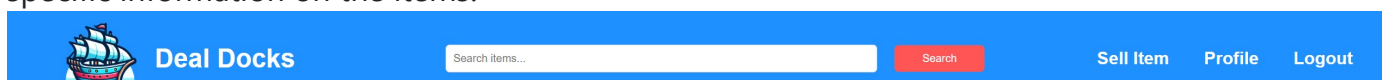

User Registration and Login

Users can register and log in to the application. If a user isn't logged in, they will see the page below. To log in, simply press "Login" in the top right, log in with Google, and then the user will be logged in.

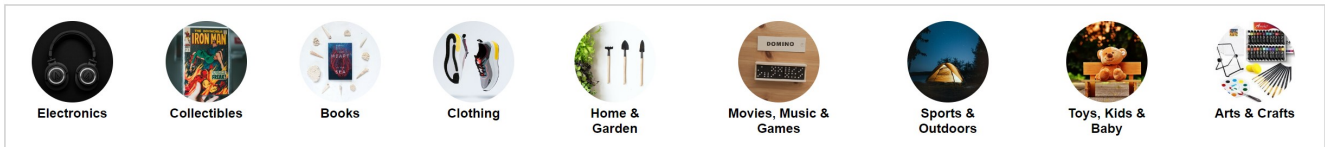

HomeScreen

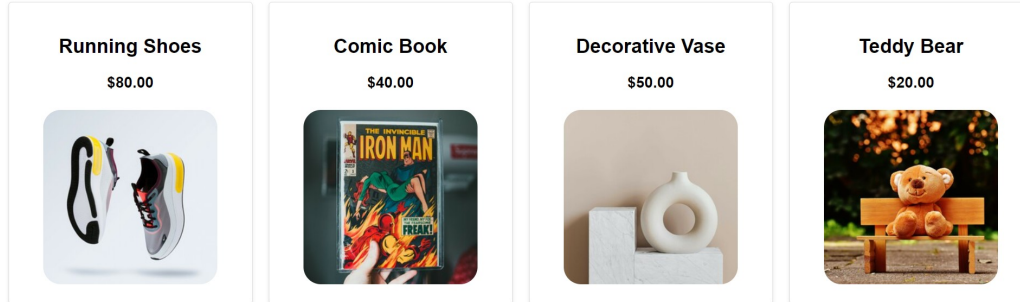

The home screen displays suggested items for the user. If the user has bookmarked items, these will be displayed. If there are less than 4 bookmarked items, other items will be displayed to fill up the space. Below the Items for Sale, your items for sale will be listed. Click on any of the categories to pull up all of the items in that category. Click on any of the items to see more specific information on the items.

Categories

Items for Sale

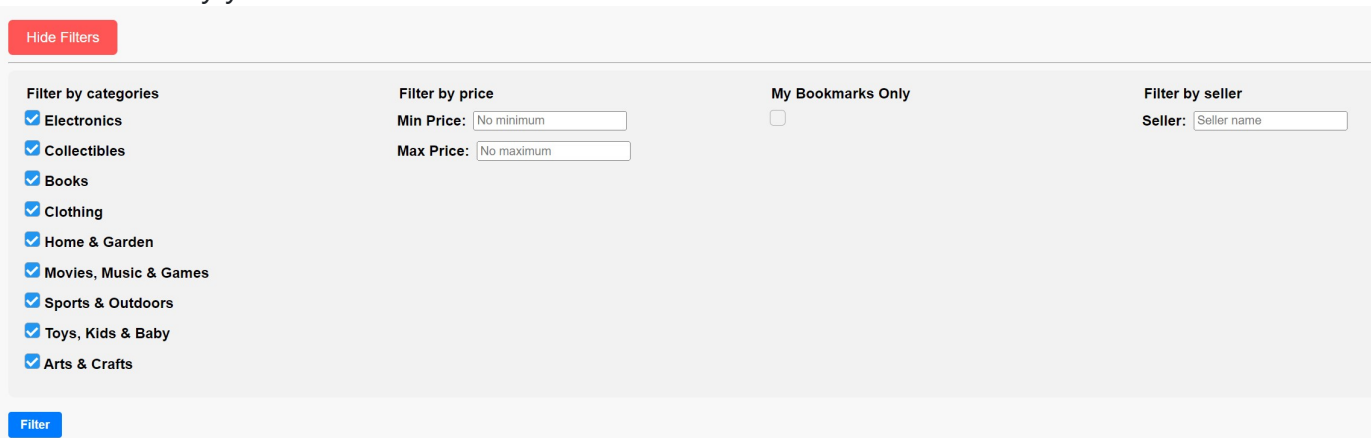

Navigation Bar

The Navigation Bar has a Deal Docks button that will take you to the home page, a search bar where you can search for items, a "Sell Item" button that takes you to list an item, a "Profile" button that takes you to the profile page, and a "Logout" button to sign out.

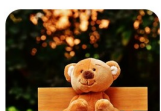

Search Page

The search page is the landing page when the search bar is used. Below is an image of the result for searching for "Teddy". You can show filters to filter the result based on category, price, bookmarked by you, and seller name.

Displaying results for: Teddy

Teddy Bear

Review for Mystery Novel

Review by: [jenniecasy](#)

Item: [Mystery Novel](#)

Rating:

The plot was a bit convoluted for my taste, though the writing style was superb.
